The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/712,018	<b>Applicant(s)</b> PUESTER ET AL.	
	<b>Examiner</b> TRACY DOVE	<b>Art Unit</b> 1795	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

### **DETAILED ACTION**

This Office Action is in response to the communication filed on 10/30/07. Applicant's arguments of 8/17/07 have been considered, but are not persuasive. Claims 1-5, 7, 9-16, 18, 33, 34 and 36-42 are pending. This Action is made FINAL.

#### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/30/07 has been entered.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-5, 7, 9-16, 18, 33, 34 and 36-38 are rejected under 35 U.S.C. 102(e) as being anticipated by Frederiksson et al., US 2005/0260493.

Frederiksson teaches a NiMH bipolar battery having a sealed housing, a negative end terminal, a positive end terminal and at least one biplate assembly comprising a biplate, a positive electrode and a negative electrode. A separator is arranged between each negative and positive electrode forming a battery cell. The separator includes an electrolyte. The battery

Art Unit: 1795

includes a frame (gasket) that is attached to each biplate and/or biplate and end terminal to permit ambient gas to pass between adjacent cells, thereby creating a common gas space for all cells in the battery (abstract). Figures 9-11 depict embodiments where the gasket 60,70,80 encompasses the peripheral edge of the biplate and has a hole 61,71,81 for gas passage. The frames 60,70,80 are made from a hydrophobic material (0100-0102). The frame provides a adequate seal against the biplate to prevent any electrolyte paths to be formed between adjacent cells, thus eliminating the need for a separate hydrophobic barrier (0103). The frame may be made of an injection molded thermoplastic elastomer compound to form a better seal with the biplate (0046,0094). At least one ridge 53 (guide means) is provided along the inside of the casing 27 to define the position of the edge of the biplate assembly 40.

Thus the claims are anticipated.

### ***Response to Arguments***

Applicant's arguments filed 8/17/07 have been fully considered but they are not persuasive. Examiner notes new claims 39-42 correspond to canceled claims 27-30, which were not previously rejected in view of the prior art in the last office action. Examiner also notes that the petitions under 37 CFR 1.78(a)(3) and 37 CFR 1.55(c) was "dismissed" in the decision of 12/28/07. Therefore, the priority claim has not been perfected.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tracy Dove whose telephone number is 571-272-1285. The examiner can normally be reached on Monday-Thursday (9:00-7:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Pat Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
